MEMORANDUM FOR: Regulatory Strategy Conference (RSC) Participants
 SUBJECT: RSC Meeting - 07 November 1994

Dear Participant:

Our next RSC meeting will be held at the offices of the Solano Irrigation District, 508 Elmira Road, Vacaville, California. POC at the District's office is Wendy at (707) 448-6847. For those of you unfamiliar with the location of the District's office the following directions are offered:

From San Francisco -

I-80 east to Vacaville
 Exit @ Peabody Rd./Elmira Rd. exit
 Turn left at signal onto Peabody Rd.
 Go 1/2 block and turn right onto Elmira
 Go approximately 1/2 mile to SID office on the right.

From Sacramento Area -

I-80 west to Vacaville
 Exit @ Mason St./Travis AFB exit
 Go right at signal onto Mason St.
 Mason becomes Elmira after you go under the freeway. Go approximately 1/2 mile to SID office on the right.

In either case if you come to a cemetery on Elmira Road you have gone too far! (Thanks Mike for this information and for making the necessary reservations!)

As your facilitator, I appreciate your commitment to continued participation in this series of sessions dedicated to resolving some very difficult issues related to permitting activities in the South Bay. While your current discussions are specifically oriented toward a single applicant, the strategies you may develop should be applicable to similar activities that may be proposed by others in the future.

I hope that each of you will have taken the time to preview the Environmental Assessment provided by BCDC prior to your arrival.
